We kindly ask all colleagues in charge of this matter to look through each document considering the above points very carefully and submit to us. We WON'T accept any documents provided directly by the applicant themselves without exception !

★LANGUAGE LEVEL AND EVALUATION★

- Because the majority of the subjects are conducted in Japanese, at least Japanese Language Proficiency Test , JLPT, N3 levels are highly recommended in order to catch up with the classes.
- When it comes to academic evaluation, exchange students will be treated by the exact same criteria as regular Japanese students. We don't offer them any special consideration just because they are foreigners. Thus the results are all the students' own responsibility.

★HOUSING★

We have two dormitories available for international students. However the capacity is limited and as the number of the international students is increasing, students can't necessarily get to stay in school-owned housing. In some cases, students may have to stay in a private apartment which will be a much higher cost. For example, if a student lives in our dormitory, the annual rent is around 500,000JPY. But this number goes up to nearly double for private apartment. So please take these possible expenses in consideration when applying for our exchange program, because there is no guarantee that you will be allocated school-owned housing.
